

Letter of Intent

The mission of the Professional Education Unit at Armstrong Atlantic State University is to develop educators who are prepared and reflective decision makers committed to teaching diverse learners. This mission is based on the belief that career teachers in concert with other professional educators are decision makers who need to be prepared to efficiently and effectively make a myriad of daily decisions, both individually and collaboratively.

In a letter written to the faculty in The Department of Special and Adult Education and Community Leadership, express how you hope this degree program will prepare you to be an effective teacher of students with disabilities. Limit your comments to no more than two typed pages.
